ABOUT US

FLOTREL INDUSTRIES PVT LTD is one of the leading manufacturers of Heat Exchangers, Process Equipment, Industrial Pressure Vessels in Carbon Steel, Stainless Steel, Alloy Metals catering to the industrial requirement in various industries like Paper, Pharma, Dairy, Breweries, Chemicals, Petrochemical, Heavy Engineering by using our two decade experience using Superior Engineering Techniques and Modern Technology in fabrication our experience allows us to handle projects and complete successfully including repairing and other activities.

Powering Your Process...

OUR TEAM

We are supported by a diligent and multifaceted team of professionals, whose persistent efforts has enabled us to hold a respectable position in the market with the maximum trusts of the customers. The entire production process, right from the procurement of the raw material till the final delivery at the clients' end, is supervised by our efficient team of experts. Further more, we keep on updating our team with the evolving trends of the industry and strive hard to offer solutions accordingly.

Quality assurance

Keeping all the quality parameters as our major focus, we manufacture and supply an extensive range of the products. To conduct tests, our company has incorporated a modern laboratory equipped with testing instruments and equipment along with physical and chemical testing facilities. Moreover, the finished products are also tested on parameters like: Durability, Clarity, Dimensions, Design, Material used, Resistivity.

Powering Your Process...

OUR SERVICES

We at FLOTREL Industries Manufacture Heat Recovery products like Condensate recovery Systems , Flash steam recovery Vessels , Condensate Pumping Traps , Water Heating Solutions, Steam injectors , Pipeline Accessories like Basket Strainers ,Tee type Strainers ,Wye Type Strainers, Flow Metering Skids , Gas Metering Skids We are Also into system integration as per customer requirements

FACILITY AND INFRASTRUCTURE

- We have established a family-owned manufacturing facility at Chakan phase iii located in a well facilitated industrial area in terms of transport by road, rail, air, surrounding with big manufacturing hubs like Mercedes Benz, Volkswagen, Hyundai, Mahindra with well modernized machine shop & fabrication shop.
- 12000 sq ft with SWL 10 mt EOT crane

Powering Your Process...

WE OFFER

- Fabrication in Carbon Steel, Alloy Steel, Stainless Steel in all series
- Specialized fabrications as per ASME codes
- In house Hydro testing facility up to 350 bar, Dye penetrant test, Pneumatic test
- Skid mounted units for fluids such as hydrocarbon liquids, gases, chemicals, special liquids, etc.
- Detailed engineering packages
- Heat recovery equipment such as condensate recovery pumps, flash separation vessels, moisture separators, strainers basket & wye type and other equipment such as pressure vessels, storage tanks jacketed vessels, heat exchangers, air/gas separation systems, strainer cum air eliminators, flow & level measuring instruments and accessories like LT chambers/cages, condensate pots, air headers filters valves etc. & other customized products, piping and tubing installation and commissioning
- R&D designs & engineering new product development,
- Onsite services and supports
